WORK EXPERIENCE

Photo Editing

2020-present

Infoeye Software Pvt. Ltd.

I have been working in photo editing since 2020. I have experience in photo retouching, background removal, color correction, image editing, and enhancing image quality. I use Photoshop and other editing tools to create clean and professional images for websites, products, social media, and business purposes.

Graphic Design & Branding

2021-2023

Worked on branding and graphic design projects, including logo design, packaging design, social media designs, and other creative materials. Experienced in using Photoshop, Illustrator, and Canva to create professional and attractive designs.

3D Designer

2023

Since 2023, I have been working as a 3D Designer using Blender and CLO 3D. I create detailed 3D models, clothing designs, product visualizations, textures, materials, and realistic renders. I work on projects from concept to final visualization and focus on creating high-quality, professional 3D designs.
